

Matthis Roda

2nd Year Student at Epitech

matthis.roda@epitech.eu | [linkedin.com/in/matthis-roda](https://www.linkedin.com/in/matthis-roda) | github.com/MattRoda

EDUCATION

Sep 2025 - Present

EPITECH – European Institute of Technology

- Intensive computer science program centered on project-based learning: software development, system and network administration
- Self-directed learning with immersion in Linux, C, and Python environments from the first year

EXPERIENCE

Feb 2026

Orange Business Hackathon

Ranking : 2nd place

- Developed in 24 hours an audit and optimization platform for a fleet of 90 SD-WAN routers (VeloCloud), integrating a recommendation algorithm based on real telemetry (throughput, tunnels, flows) and a local AI assistant (LangChain + Ollama) for natural language querying
- Designed the technical architecture (Python, SQLite, JavaScript) and led integrations within a 4-person team, with secure communication via Tailscale VPN

Dec 2025

POC X Ramify Hackathon

Ranking : 21/120

- Designed in 24 hours an algorithmic trading bot capable of autonomously generating profits on simulated market data
- Modeled quantitative strategies in Python (technical analysis, risk management, backtesting) in a competitive environment

Ongoing

Prepped List, Personal Project

- Developing a native iOS application in Swift: an intelligent task manager integrating AI features for prioritization, organization, search, and PDF/PowerPoint generation
- Front-end architecture built with Claude Code; managing state, design system, and local data persistence

Jan 2025 -
Jun 2025

Freelance

- Audited and modernized the IT infrastructure of a 10-employee real estate diagnostics company: equipment upgrades, workstation configuration, and optimization of digital tools
- Designed and deployed the company website, establishing its digital presence

May 2020 -
Aug 2022

Caffe&Gelato

- Supervised the seasonal team and managed full point-of-sale operations: supply and stock rotation, product preparation, and cash handling

CERTIFICATIONS

Dec 2025

Fortinet NSE 3: Certified Associate Cybersecurity

- Validated skills in network security, next-generation firewalls, and endpoint protection

Nov 2025

Fortinet NSE 1 & 2: Certified Fundamentals Cybersecurity

- Mastery of cybersecurity fundamentals; threat landscape, information security, and best practices for system protection

LANGUAGES, SKILLS & INTERESTS

Languages

French (Native), English (TOEIC 890/990)

Programming

Python, C, Swift

Tools / Env.

Linux, Git & Github, n8n, VirtualBox, Supabase, Twilio, Claude Code

Interests

Artificial Intelligence, Cybersecurity, Finance, Entrepreneurship, Formula 1

Volunteering

Volunteer at Centre Ressource Aix-en-Provence since 2016
